

Info from Nancy 6/26/17:

I have been informed of the following.....A paymaster was told by his attorney that when you go into exchange or through an 800 number and asked how many currencies do you have?

Tell them how many currencies you have but do not include the ZIM as a currency:

Mention you have XYZ currencies and you have ZIM BONDS!!!

So in summary do not Associate the Zim as a currency because it is not!....the calculation difference could be huge financially.
